Step 2: Start a new project

- 1. You can either submit a 'regular' quote request by uploading a file with a description of specifications or request an instant quote where you enter the specifications yourself and receive an immediate price.
- 2. Click the 'UPLOAD FILE' button to upload your CAD file(s).
- 3. Select the files you want to upload and wait for the upload to complete.

Step 3: Select technical specifications

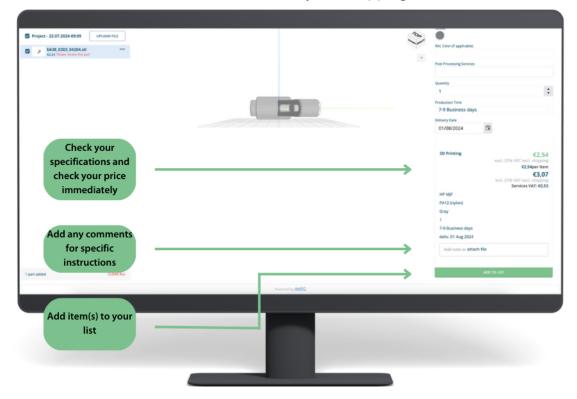

- 1. For each uploaded file, choose the desired production technique (FDM, MJF, thermoforming, or injection moulding).
- 2. Choose the desired material.
- 3. Specify additional options such as color, infill, layer thickness, post-processing, and quantity.

Step 4: Review and finalize your project

- 1. Review all details of your project, including the estimated delivery time and total price.
- 2. Add any comments to your order for specific instructions.
- 3. Click 'ADD TO LIST' to add the item to your shopping cart.

VOUR PLASTIC SOLUTIONS

Step 5: Save and edit your quote

- 1. Once your item is added to your list, you can find it by clicking on the shopping cart.
- 2. Click 'SAVE QUOTE' to save your request.
- 3. Go to the 'QUOTES' tab to edit your request if necessary.

Step 7: Track your order

- 1. Track the status of your request under the 'QUOTES' tab. Here you can view and adjust your saved, pending and approved quotes.
- 2. If your quote is approved, you can track the status of your order under the 'PROJECTS' tab.

Step 8: Recurring projects

1. Do you have products that you expect to need frequently? Under the 'CATALOG' tab you can upload products that you regularly order. This feature ensures that you can quickly and easily place repeat orders.
